COMPUTER ENGINEERING TECHNOLOGY

Markham, ON · 289-552-3894 · bwj9515@gmail.com · linkedin.com/in/bwj95 · bwj95.github.io

SUMMARY

Computer Engineering Technology graduate who builds across hardware and software — modern web apps, ESP32 firmware, and the infrastructure underneath. Fluent in C/C++, C#, Python, and JavaScript; ships React/Astro sites, writes embedded C, and administers Windows/Linux servers. Builder's mindset, security foundation, 10+ years customer-facing.

TECHNICAL SKILLS

Programming	C, C++, C#, Python, JavaScript, SQL, HTML5, CSS3
Web	React, Astro, Vite, responsive/SPA, WCAG, REST APIs, SEO/Open Graph
Embedded / IoT	ESP32 (ESP-IDF & Arduino), C firmware, BLE, Wi-Fi, SPIFFS, circuit design
Infra & Cloud	Windows/Linux server admin, networking (Cisco Packet Tracer), IT security, Cloudflare, Git
AI & Automation	AI-assisted & agentic development, Model Context Protocol (MCP) integration, prompt engineering, multi-model AI workflow tooling

SELECTED PROJECTS

More at bwj95.github.io

Spark+Play Foundation — Website (*freelance client*) · React 19 · Vite · Cloudflare

- Built and deployed a responsive site for a registered Canadian charity, iterating directly with the client.
- Cut page weight ~84% (2.2 MB → 353 kB) via sized WebP + vector logos; added SEO, social previews, and a serverless contact form with anti-spam.

Polyglot — Professional Phrase Guide (*React 19 · Web Speech API · GitHub Pages*)

- Data-driven reference app: 350+ phrases, instant search, favorites, flashcard/quiz practice — bwj95.github.io/polyglot.
- Integrated Web Speech API for native-accent audio; deployed live via a GitHub Actions pipeline.

ESP32-S3 Firmware & Enclosure (*Embedded C++ · Python · OpenSCAD*)

- Wrote lab firmware with a shared serial + BLE control protocol and cross-platform Python host GUIs.
- Designed and 3D-printed a custom snap-fit enclosure in OpenSCAD (prototype V1 accepted).

EXPERIENCE

Freelance Web Developer — *Self-employed, Markham, ON · Jun 2026 – Present*

- Build and deploy responsive client websites end to end: design, development, accessibility, and cloud hosting.

Earlier — 2008 – 2022

- Baker (Tim Hortons) · Call Centre Analyst (PR Exchange) · Cabinetry Processor (Cameo Kitchens) · Outdoor Property Maintenance & Turf (GQ Gardening, York Downs) · Grocery Clerk (No Frills) — a decade of reliable, customer-facing, hands-on work.

EDUCATION

Advanced Diploma, Computer Engineering Technology — *Seneca Polytechnic · Jan 2022 – Apr 2025*

- IT infrastructure, networking, system administration, and security; Windows/Linux servers, Cisco Packet Tracer simulations, and software across web, desktop, and embedded targets.

Ontario Secondary School Diploma — *Unionville High School · Jul 2013*
